

KADAM PRODUCTION

SIMPLE WEB GUIDE

A simple, easy-to-understand explanation of how your websites and management tools work—written specifically for non-technical users.

Prepared For: Kadam Production Client

Ecosystem Portals: Main Website & Operational App

Date: July 2026

1. The Main Website (www.kadamproduction.in)

This is your public portfolio website where clients come to see your work and contact you. Here is what happens when you go to each page:

Page Loader: A loading screen with a percentage counter that plays a circular animated logo while downloading images/videos to ensure the site loads smoothly.

Home Page: Displays a looping background cinematic video and shows your statistics, latest slides, and featured event photo highlights.

Services Page: Lists all the events and setups you offer (Weddings, DJ Shows, Light rigs) with direct buttons to book them.

Gallery Page: Showcases all past event photographs, which can be filtered by clicking category tabs (like Weddings or Concerts).

Contact Page: Includes a simple form for clients to message you, along with a Google Map pointing directly to your Surat office.

2. Main Admin Dashboard (www.kadamproduction.in/admin)

This is the back-office screen where you control the content shown on your main website. Here is how each option works:

Gallery Manager: Upload new photos or video links, and delete or reorder them, updating your public gallery instantly.

SMTP settings: Enter your email sender configuration so the website can dispatch notifications and reset codes to you.

Reset Passwords: Click the "Send OTP" button to get a 6-digit code in your email, then type it in to change your login password securely.

Contact Editor: Type in new phone numbers or WhatsApp links to update them globally across the site immediately.

3. Admin Panel Options - What and Where to Change

Here is the detailed guide explaining every menu option inside the Admin Panel, including what you can change and where the updates appear:

Services Tab: **What you can change:** Edit titles and upload new display photos for your 9 core service cards.

Where it updates: Changes reflect immediately on the public "Services" page of the website.

Gallery Tab: **What you can change:** Upload new event photos, assign them categories (Weddings, Concerts), drag to reorder, or delete old photos.

Where it updates: Changes reflect immediately in the filterable photo grid on the public "Gallery" page.

Videos Tab: **What you can change:** Add new YouTube/Vimeo video links and assign them search titles.

Where it updates: Changes update the scrollable video showcase section on your Home page.

Vibrants Tab: **What you can change:** Update slide titles and background photos for the "Our Vibrants" showcase (maximum of 6 cards).

Where it updates: Changes update the animated horizontal slideshow carousel on the Home page.

Settings Tab: **What you can change:** Update contact coordinates (Phone 1, Phone 2, Business Address, and Main Email).

Where it updates: Changes update the contact info shown in the Footer and Contact page.

SMTP Config: **What you can change:** Edit Host, Port, Username, and Password settings for outgoing email dispatch.

Where it updates: Enables the password reset emails and contact form notifications to dispatch successfully.

4. The Operational App Portal (app.kadamproduction.in)

This is your booking and order tracking system. Here is what happens when you go to each menu option:

Create Order: Fill in a single form with client details, event date, and prices to register a new booking.

Order Option: View a simple spreadsheet list of all active orders, their payment status, and scheduled dates.

Categories Option: Add or remove event labels (like Concerts, Weddings, Roadshows) to classify your order bookings.

Settings Option: Adjust app system settings, branding options, and manage login sessions.

5. Quick Access Links & Credentials

Here is the list of your live portals along with the simple logins needed to access them:

Portal Web Addresses

Website / Portal Name	Web Address (URL)
Main Website	https://www.kadamproduction.in
Admin Control Center	https://www.kadamproduction.in/admin
Booking Manager App	https://app.kadamproduction.in

Login Logins

Portal Name	Username / Email	Password
Admin Control Center	admin	Meet@_999
Booking Manager App	meetpatel16599@gmail.com	admin123
